**FULLY REDESIGNED WRIST STRAP TESTER**

A user-friendly pad secures pass/fail judgement on a wrist strap. A banana jack on the front panel makes it easy to plug and unplug a wrist strap.

Highly visible LED lamps and buzzer will indicate test result.

*Buzzer sounds only for "PASS".*

A mounting holder can make it easy to plug and unplug even with one hand. No tool is required to remove a unit. A unit can be portable off the holder.
**Connection patterns**

Connection patterns to choose depending on wrist straps

1. Connect a banana plug of a wrist strap directly to FG-470.

2. Pinch a banana plug inserted in FG-470 with an alligator clip of a wrist strap.

3. Pinch a grounding wire inserted in FG-470 with an alligator clip of a wrist strap.

*Banana plug and grounding wire are included in FG-470.*

**FG-470**

**Packing List**

- 006P 9 V dry battery (alkaline cell recommended)
- Grounding wire
- Banana plug
- Mounting holder
- Wood screws (qty 4)
- Instruction manual

**Specifications**

- Model No.: FG-470
- Power supply: 006P 9 V dry battery (alkaline cell recommended)
- Indication: LOW: R < 800 kΩ, HIGH: R > 9 MΩ
- Accuracy: ±10% / ±0%
- Battery life: Approx. 50,000 times (9 V alkaline)
- Grounding wire: 1 m
- Operating environment: 0 to 40°C, 20 to 90%RH (without condensation)
- External dimensions: 85 (W) x 44 (H) x 90 (D) mm
- Weight: 120 g
- With mounting holder: 92 (W) x 48 (H) x 97 (D) mm
- Weight: 160 g
- Without battery

Unit: 006P 9 V dry battery for bias, Grounding wire, Banana plug, Mounting holder, Wood screws (qty 4), Instruction manual
